INFORMATION EXCHANGE COMMITTEE MEETING

FOR DISCUSSION

SUBJECT: UPDATE ON B2B PROCEDURES CONSULTATION FOR V3.3.1 AND V3.6

AGENDA ITEM: 15

1. PURPOSE

To inform the IEC of the closing of submissions on the B2B Procedures Draft Report and Determination for B2B Procedures v3.3.1 and v3.6.

2. DISCUSSION

The IEC requested that the Business-to-Business Working Group (B2B-WG) incorporate six change proposals into a B2B Procedures Change Pack at its May 2020 meeting and by circular. These change proposals included:

- Four proposals to clarify existing Life Support Procedures
- An update to the National Electricity Market (NEM) Retailer of Last Resort (RoLR) Procedures Part B to incorporate the Global Settlement Rule change
- An update to the Service Order Procedures to reflect Evoenergy service level changes regarding ACT jurisdiction re-energisations

These were developed into a change pack and proposed to be implemented as outlined in Attachment 1.

The IEC approved the publication of an issues paper for the B2B Procedures v3.3.1 and v3.6 consultation on 25 May 2020. Five submissions were received in response to the issues paper. The majority of participants did not object to the proposed changes, nor to the proposed list of costs and benefits presented for each change. As such, the changes being proposed are assumed to meet the National Electricity Objectives, the B2B Factors, and the B2B Principles.

The Draft Report was published on 20 October 2020 and submissions to this round closed on 4 November 2020. The Draft Report provided further clerical edits and clarity to the following documents:

- B2B Guide
- NEM RoLR Procedures
- Customer and Site Details Notification Process

Three submissions were received in response to the Draft Report. These were from Origin Energy, Red and Lumo Energy and Ergon Energy and Energex. No significant changes to the Report or Procedures are expected to occur as a result of these submissions.

The Final Report and Determination is currently being drafted and will be circulated to the IEC for review and approval ahead of publication on 12 December 2020.

3. RECOMMENDATIONS

It is recommended that the IEC note that:

- The B2B Draft Report was published on 20 October 2020
- Submissions on the Draft Report closed on 4 November 2020, with three submissions received
- The Final Report and Determination is currently being drafted and will be circulated to the IEC for approval ahead of publication on 12 December 2020.
