Matters Arising

Action Item	Date of Meeting	Person Responsible	Date Required	Status
Action 0609-01 – The B2B-WG to review if the current procedures are fit for purpose for the transmission of power quality information between participants and the scalability required (high level indications) as the volumes of transactions will increase.	06 September 2022	B2B-WG	November Meeting	**In progress.**
Action 0609-02 – The B2B-WG to review the B2B procedures and determine if power quality transactions could be accelerated using B2B procedures rather than via an AEMC rule change.	06 September 2022	B2B-WG	November Meeting	**In progress.**
Action 0609-03 – Schedule an out of session meeting to provide feedback on the draft report.	06 September 2022	B2B- WG	Once the AEMC's draft report is made available	**In progress.** To be determined at November IEC meeting.
Action 3008-01 - A meeting will be set up so that the IEC can provide feedback on the B2B options as outlined in the AEMC's Metering Competition Review Directions Paper to be released in the near future.	30 August 2021	Secretariat	Once the AEMC's draft report is made available	**In progress.** AEMC published Draft Report on 3 November 2022, summary of potential B2B impacts included in meeting slides. (Review of the regulatory framework for metering services | AEMC).

Action Item	Date of Meeting	Person Responsible	Date Required	Status
Action 2405-01 - The Secretariat to provide a summary with an emphasis on any B2B impacts of the AEMC Review of Metering Competition draft report.	25 May 2021	Secretariat	Once the AEMC's draft report is made available	**Completed.** AEMC published Draft Report on 3 November 2022, summary of potential B2B impacts included in meeting slides. (Review of the regulatory framework for metering services | AEMC).
Action 2512-01 – AEMO to: a) circulate draft Terms of Reference for the Embedded Networks Working Group via circular. b) include embedded networks as a standing agenda item for future meetings. c) provide high-level approximate quantum of work for embedded network reforms.	25 November 2019	Secretariat	ASAP	**On hold.** In its December 2019 meeting, the COAG EC referred the proposed changes to the Embedded Networks framework as proposed to the AEMC to SCO for review and feedback during 2020. The TORs will be finalised once the COAG EC provides a decision on the way forward. Latest verbal advice from the AEMC (6/02/20) is that the effective date of 1 July 2021 will be pushed out further. February update: Michelle Norris to investigate whether any advance work can be initiated in advance of the formal release. Update: no further progress, awaiting Energy Ministers review.

Action Item	Date of Meeting	Person Responsible	Date Required	Status
Action 1305-06 – AEMO to hold industry workshop once greater visibility and detail is available on any B2B system uplifts that are required as part of either the CDR or AEMO's own digital uplift projects. This is to seek to ensure improved flexibility, and less schema changes are required in the future	No specific timeframe	Secretariat	No specific timeframe	**For future action.** Note that B2B is not included in the CDR design.
