1. INTRODUCTION

These are the release notes for GBB (WA) 1.9 (Build 329). This release addresses important issues described in sections below.

2. STAKEHOLDER REQUESTS

Publication Checks (GISP-999)

In the event that Gas Market Participants do not meet submission deadlines as specified in the GSI Rules, the GBB (WA) has introduced a feature that allows AEMO to republish reports after the auto-publication schedule. This enables AEMO to update published reports with the latest available data received from late submissions.

At the request of AEMO’s market auditors, GBB 1.9 introduces an additional validation that prevents the publication of reports prior to the auto-publication times.

GBB Notice Board (GISP-996)

At the request of a Market Participant, the GBB Notice Board has been renamed as **Industry Information** while also being moved to be under the Participant tab in the GBB. To support this change and more broadly reflect that the page is for information for all suppliers and consumers of natural gas rather than restricting it to gas market participants, the description has been updated as follows:

This Industry Information is published to enable suppliers and consumers of natural gas to share details about opportunities for the sale or purchase of natural gas, or natural gas services. The information on this page has been provided by stakeholders in the Western Australian gas industry. AEMO does not warrant the accuracy of the information nor accept any liability for any actions taken in reliance on this information. AEMO reserves the right to remove any information published on this section of the GBB (WA) by a Gas Market Participant, or by AEMO on behalf of a non-Gas Market Participant, at any time and for any reason.

3. OTHER CHANGES

Retirement of imowa.com.au URLs

The following table summarises the retirement of URLs that are currently re-directing to the valid URLs in this release. The valid URLs have been available to participants in production since November 2015.

Retired URL	Valid URL
gbb.imowa.com.au	gbbwa.aemo.com.au
gbb-trial.imowa.com.au	gbbwa-trial.aemo.com.au

Market Participants who use web services will need to ensure that the valid URLs are used.

4. RESOLVED ISSUES

	Reference	Summary	Details
●	GISP-876	Medium Term Capacity submissions did not adequately contemplate cancellation of maintenance on the pipeline or facility.	This submission validation has been amended to allow Market Participants to submit Medium Term Capacity submissions with start dates in the past. End dates must be on or after the current gas day.

Status	
●	Internal changes
●	Minimal or no impact to Gas Market Participants
●	Needs Gas Market Participants' attention. Potentially requires system or operational procedure changes

MEASURES AND ABBREVIATIONS

Abbreviations

Abbreviation	Expanded name
AEMO	Australian Energy Market Operator
GBB (WA)	Western Australian Gas Bulletin Board
URL	Uniform Resource Locator
