North Metro

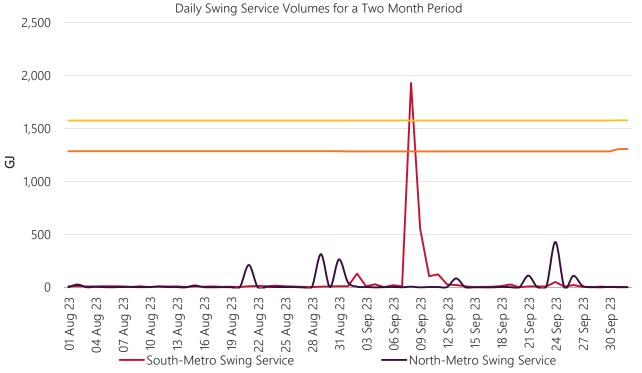

Average and peak swing service volumes in the North Metro sub-network were at relatively low levels for the month of September 2023.

South Metro

Average and peak swing service volumes in the South Metro sub-network were at relatively low levels for the month of September 2023 with the exception of a spike on gas day 8 September 2023 due to pipeline injection being less than total user pipeline nominated amount (UPNA). The shortfall was due to pigging activity on the ATCO network.
