<p>Does your organisation have an alternative proposal for implementation?</p>	<p>United Energy is supportive of the 1 November 2023 effective date.</p> <p>However, United Energy notes this change is more than updating a table for the MDP notification. It requires system changes and therefore is not considered a minor amendment.</p>

<p>Does your organisation agree with the proposed change to section 2.2 of the MSATS Procedures:</p>	<p>No comment.</p>

Metering Procedure Changes

<p>CATS Procedure Principles and Obligations (“CATS Procedure”) to ensure that the Current FRMP updates the Last Consumer Change Date (“LCCD”) field.</p>	<p>However United Energy notes Section 2.2 <i>ICF 075</i> (page 3) of the <i>ICF Minor Amendments Package August 2023</i> PDF document available at https://aemo.com.au/-/media/files/stakeholder_consultation/consultations/nem-consultations/2023/issue-change-form-icf-minor-amendments-package-august-2023/icf-minor-amendments-package-august-2023.pdf?la=en, the statement “<i>AEMO will apply logic to the ‘Move-In’ CR 1030/CR1040 transactions to automatically populate the LCCD field, once the LCCD field goes to a completed status</i>” appears to be an error – it should be the CR moves to the Completed status, <i>not</i> the LCCD field.</p>
