

NATIONAL ENERGY RETAIL LAW

DIVISION 5 OF PART 6

ROLR NOTICE

The Australian Energy Regulator (AER) has issued this Notice under section 136 of the National Energy Retail Law (NERL).

RoLR Event

A Retailer of Last Resort (RoLR) event has occurred in relation to GoEnergy Pty Ltd (097 708 104) with the registered participant identification '216' in the Short Term Trading Market (STTM). Prior to the issue of this notice, Go Energy Pty Ltd was an authorised gas retailer for the purposes of Part 5 of the NERL with the authorisation identification TG12017.

On 1 April 2016, GoEnergy Pty Ltd appointed an external administrator. The appointment of an administrator constitutes a RoLR event under section 122 of the NERL.

The appointment of an administrator is also a default event in the gas Short Term Trading Market (STTM). On 4 April 2016, the Australian Energy Market Operator Limited suspended GoEnergy Pty Ltd from the Short Term Trading Market, with effect from 6:30am on Tuesday 5 April 2016 for the Sydney hub, and with effect from 8:00am on Tuesday 5 April 2016 for the Brisbane hub.

Affected Fuels and Markets

As GoEnergy Pty Ltd sold gas to customers in New South Wales and Queensland, this notice affects gas customers in those jurisdictions, in areas within and outside of the gas Short Term Trading Market.

Registered RoLRs Appointed as Designated RoLRs by operation of section 132(1) of the NERL

Pursuant to section 132(1) of the NERL, the default RoLRs set out in schedule 1 are taken to be appointed as the designated RoLRs for this RoLR event with effect from the transfer date specified in this notice.

Section 137 gas directions

If it becomes necessary for the AER to issue a direction or directions for gas under section 137 of the NERL, the AER will amend this RoLR notice under s. 136(6) of the NERL. The AER will publish the RoLR notice (as amended) in accordance with

ss. 2.4.1–2.4.4 of the AER’s RoLR Plan. Parties which may be affected by a direction for gas should confirm whether there are any amendments to this RoLR notice.

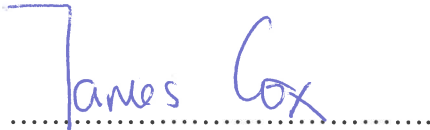

Transfer date

In accordance with s. 140 of the NERL, customers of GoEnergy Pty Ltd will transfer to the designated RoLRs set out in schedule 1 with effect from 6:30am (Australian Eastern Standard Time) Tuesday 5 April 2016 for the Sydney hub of the STTM, and customers in New South Wales that are located outside the STTM. The transfer date for customers in the Brisbane hub of the STTM is 8:00am (Australian Eastern Standard Time) Tuesday 5 April 2016.

Revocation of GoEnergy Pty Ltd’s gas retailer authorisation

Under s. 142 of the NERL, the AER revokes GoEnergy Pty Ltd’s gas retailer authorisation (AER authorisation identification TG12017) with effect from the transfer dates specified above. This means that, for the purposes of s. 88 of the NERL, GoEnergy Pty Ltd must not sell gas to a person for premises in New South Wales, Queensland, the Australian Capital Territory and South Australia.

DATED: 4 April 2016
