- Receive acknowledgement of submitted Bid
- Receive new Bid Reports through data-interchange/data model
- Dispatch, 5min Pre-Dispatch, Pre-Dispatch, and DS PASA will now consider new 5min Bids

Fixes

N/A

Assumptions/Constraints

- 30-minute bids are not supported.
- 5MS Data Model testing is still in progress. Estimated date of completion – 31 December 2019.

Known issues

- Bid Web Portal -The transfer of ownership of Dispatchable Unit (DU) requires a new owner to be able to view Bids for that particular DUID. Feature to be delivered in the future.
- Bid Web Portal - When there is no bid present for the current day, the display does not default to the last effective bid.
- Bid submissions with duplicate Reference ID will be rejected and not recorded in the AEMO bids database. There will be no report generated for this.
- API requests using compression is not yet fully implemented. Please use uncompressed requests until this is confirmed fully implemented.
