

SUMMARY OF CAPACITY CREDITS ASSIGNED BY FACILITY FOR THE 2017 RESERVE CAPACITY CYCLE

For the Capacity Year from 1 October 2019 to 1 October 2020

In accordance with clause 4.15.1, clause 4.20.5A, and clause 10.5.1(f)(iv) of the Wholesale Electricity Market (WEM) Rules, the Australian Energy Market Operator has assigned Capacity Credits to Facilities that must provide Reserve Capacity into the South West interconnected system for the 2019–20 Capacity Year. Following the assignment of 4,913.217 MW of Certified Reserve Capacity, a total of **4,887.970 MW** of Capacity Credits were assigned.

AEMO has secured sufficient Capacity Credits to meet the Reserve Capacity Target of 4,660 MW from Facilities that were not required to provide Reserve Capacity Security. As such, the Reserve Capacity Auction for the 2017 Reserve Capacity Cycle has been cancelled.

The Reserve Capacity Price (RCP) for the 2019–20 Capacity Year is available on the [Benchmark Reserve Capacity Price](#) page.

The final DSM Reserve Capacity Price for the 2019–20 Capacity Year will be published in the 2019 WA Electricity Statement of Opportunities due to be released in June 2019.

No Certified Reserve Capacity:

- Was assigned under the Early Certified Reserve Capacity provisions of clause 4.28C of the WEM Rules.
- Would have been offered into the Reserve Capacity Auction if one had been held.
- Is subject to a Special Price Arrangement.

Participant	Facility	Facility Class	Capacity Credits (MW)
Alcoa of Australia	ALCOA_WGP	Scheduled Generator	26.000
Alinta Sales	ALINTA_PNJ_U1	Scheduled Generator	135.000
Alinta Sales	ALINTA_PNJ_U2	Scheduled Generator	135.500
Alinta Sales	ALINTA_WGP_GT	Scheduled Generator	196.000
