Version history

21 September 2006	Market Procedure for Web Site Changes as at Market Start
10 June 2008	IMO amended changes to the procedure resulting from Procedure Change Proposal PC_2008_03

1. Market Procedure for Web Site Changes

1.1. General and Interpretation

- 1 The Web Site Change Procedure specifies the protocols by which System Management and the IMO can change the Market Web Site. This procedure is made in accordance with Market Rule 10.3.5.
- 2 The Market Web Site includes any web site operated by the IMO to carry out its functions under the Market Rules. The Market Web Site consists of the Wholesale Electricity Market System (WEMS) used by Participants and the public web site at <http://www.imowa.com.au>
- 3 System Management must provide to the IMO any information the Market Rules require System Management to publish.
- 4 Upon receiving information from System Management in step 3, the IMO must publish this information.
- 5 The IMO may publish information classified as Public under Market Rule 10.5 on the IMO public web site <http://www.imowa.com.au>
- 6 The IMO must only publish information classified as SWIS Restricted Information under Market Rule 10.6 through the WEMS.
- 7 The IMO must only publish information classified as Rule Participant Market Restricted Information under Market Rule 10.7 through the WEMS and only be accessible to the Participant for which the information applies.
