1. Please provide your views on the Procedure Change Proposal, including any objections or suggested revisions:

LGP supports the proposed changes as significantly enhancing the clarity, coverage and style of the existing procedure.

2. Please provide an assessment whether the Procedure Change Proposal is consistent with the Market Objectives and the Wholesale Electricity Market Amending Rules.

LGP considers that the changes are principally administrative and that the clarifications are reasonable. Consequently they have no material bearing on the Market Objectives other than to improve their integrity via improved clarity.

3. Please indicate if the Procedure Change Proposal will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

LGP is only marginally affected by the Rule Changes.

4. Please indicate the time required for your organisation to implement the changes, should they be accepted as proposed.

Not applicable.
