

Dear IMO,

Synergy has reviewed the proposed changes to Market Procedure for Reserve Capacity Performance Monitoring PC\_2010\_05 and proposes the following minor amendments:

1. Step 2.1.9 incorrectly makes reference to itself; the correct reference is 2.1.8. The correction is shown below:

"If the IMO limits the number of days in accordance with step ~~2.1.9~~ 2.1.8, then...."

2. Step 2.5.4 uses a lower case consonant where an upper case consonant is necessary. The correction is shown below:

"The Reserve Capacity Process report must be signed by an appropriately ~~authorised~~ Authorised person...."

Regards,  
Catherine
