Glandore
SA 5159

Dear Peter

The District Council of Mount Barker is considering using the Versalux Saturn 30-46W LED in its public lighting with the aim of reducing energy use and greenhouse emissions.

To introduce these luminaires into the public lighting network in SA the device load for luminaires fitted with the above light sources must be included in the AEMO load tables.

Please confirm that you will move to initiate the inclusion of the luminaires in the load table and advise when it has been published in the AEMO load table.

Yours sincerely

Greg Sarre
