- [Guide to NEM Retail B2M API's](#)
- [Meter Data Validation Matrix](#)

## 5MS Staging Environment

- AEMO implements components of the Release in stages. Participant access is not restricted; however, the data content or system availability is not guaranteed. For more details, see <https://aemo.com.au/initiatives/major-programs/nem-five-minute-settlement-program-and-global-settlement/systems-workstream/staging-environment>

## 1. Retail Release 3

### 1.1 System Releases

The following systems have been released to STAGING

- EMDM – v3.2
- MSATS – v46.98.16
- Integration – v0.43

## 2. Major Inclusions:

Refer to the technical specification and systems guides for the full details

AEMO Functional Matrix ID	AEMO 5MS Programme: Function	Functional Testing Considerations
R11	MSATS Browser 'B2B Browser > B2B Hub Queue' page	None.
R12	MSATS Browser 'Reports and Alerts > Queue Monitoring' page	None.
R13	Retirement of RM reports: RM7, RM8, RM10, RM12, RM14, RM15, RM18, RM19, SDD and SDR	The retired RM reports will not be visible in the MSATS report menus. AEMO will generate a rejection for a retired RM report where requested (API/FTP).
R14	CATS report changes : C1, C4, C7, C10, C11	None.
R15	API Pull Functionality for B2M MTRD and MDMT, CATS, NMID	None.
R16	CATS CR changes to support new NMI classification codes	None.

R17	New Standing Data - Meter Installation Type Codes (MITC),Datastream Type 'N'	There will be no new MITC's in MSATS until LNSP's create them. DataStreamType= 'N' values should be used upon creation of new CNDIS records.
R18	MSATS NMI discovery Display of TNI2 and Vic TUoS	None.
R19	MSATS NMI Master/Summary display of TNI2 and VIC TUoS	None.
R20	MSATS Browser 'Settlement Data' page	None.
R21	New RM Report Requests: RM37, RM38, RM39	New RM reports will not be automatically pushed to Participants. Update to aseXML is required for the new RM Reports.
R22	Historic Settlement Runs @ 30 minutes	Participants will be able to verify existing NEM Settlement Runs.
R25	Existing Meter Data Reports: RM9, RM11, RM13, RM26	Existing and new meter data will be reported in the existing RM reports (reflecting the interval length received by AEMO).
R26	Existing Settlements Reports @30-min: RM16, RM17, RM20, RM21, RM22, RM25	Regardless of the granularity of the interval length received by AEMO, the data will be represented in 30 minute intervals.
R29	Access to MSATS Browser via Markets Portal	None.
R30	B2B Transaction (SORD, CUST, MTRD etc) exchange supported between Participants	None.

### 3. Notes

Defect #2185 - Participants who have a temporary password set via their Participant Administrator will need to reset their password by signing on to the Markets Portal.

Defect #2193 –Access to MSATS Browser via Markets Portal (R29) is currently delayed; AEMO will advise when this defect has been resolved.
