

# Estimated payments and volumes for RERT activation on 30 December 2019

AEMO activated 4 reserve contracts on 30 December 2019. AEMO activated the contracts due to a forecast Lack of Reserve Condition 2 (LOR 2) in Victoria on 30 December 2019.

Estimated volumes of reserves and corresponding payment estimates are listed below. These estimates are based on the amount of reserves activated by AEMO. Actual delivered volumes and payments, to be confirmed following post event analysis, will be published in AEMO's quarterly RERT report next due in February 2020.

## 30 December 2019

Location	Estimated volume of reserve delivered MWh	Estimated payments \$
Victoria	283	\$3,477,880
