Dear Terry,

Re: Trial of LED Street Lights

Endeavour Energy is interested in trialling the following Pecan LED Lights:

- NXT-12C 4AHB 850mA 35w) and
- NXT-24S 2ES 450mA 36w

that are not currently on the AEMO Load table.

Kindly proceed with the measurement of electrical loads for these fittings and submit to AEMO for them to be considered for future replacement of less efficient light sources in our franchise area.

Kindly advise us as soon as these fittings have been tested and included in the AEMO Load Table.

If you have any questions on the subject you may contact me electronically at [Amitabh.Shukla@endeavourenergy.com.au](mailto:Amitabh.Shukla@endeavourenergy.com.au) or on mobile 0401 719 939.

Yours faithfully,

**Amitabh Shukla**  
**Lighting Solutions**
