Attention: Mr Tony Fagan, Qld Sales Manager

Dear Tony

**Subject: Surfers Paradise Street Lighting Pilot Project**

The City of Gold Coast intends installing the following new light sources throughout our public domain lighting network in the Surfers Paradise area, with the aim of reducing energy use and greenhouse emissions.

- ATS P2430W LED P category 30W Fitting
- ATS P4860W LED P category 60W Fitting
- ATS COMO LED P category 30W Fitting

To introduce these luminaires into the Gold Coast public street lighting network to effect this project and others, it will be necessary to include the luminaires as mentioned above with corresponding wattages in the AEMO load table.

Therefore, the City supports your action to include these luminaries in the load table. Please advise when they have been published.

Yours faithfully

Pamela Bessette
