Melbourne VIC 3000

Dear David,

Aldridge Traffic Systems would like to submit our Boston LED luminaire 20W for inclusion to the NEM load table in accordance with clause 14 of the NEM Metrology procedure Part B. Listed per below:

Catalogue Number	Description	Load	Identification / Markings
BOS2.TE.520	Aldridge Boston 20W LED Luminaire	18.33W	L 20 C YY (Year of manufacture)

- Please find attached
 - 1) Formal request from Tasnetworks requesting the luminaire to be placed on the AEMO load table
 - 2) LCP test report
 - 3) Product datasheet.
- The load values are calculated as the average of the 30 readings from TUV report# 50290569001
- The proposed method of control of the luminaire is via timer controlled in accordance to AEMO Metrology Procedure Part B.

Yours Sincerely

Raj Bhat
Executive Manager
Aldridge Traffic Systems
