Ian Paull

Advanced Lighting Technologies Australia Inc.

110, Lewis Road

Wantirna South,

VIC 3152, Australia

Subject: Inclusion of **Syrius** LED lights in the **AEMO NEM load table**.

Dear Ian,

**City of Holdfast Bay** supports the proposal from Advanced Lighting Technologies Australia Inc. to use the **Syrius** series LED luminaires, and request that these luminaires be included on the **AEMO NEM load table** as unmetered connection points within the guidelines.

We have selected these luminaires as being suitable for our general pathway projects and would like the various options in that range available moving forward. The following variations may be used at our different locations.

1. Syrius luminaires without PE cell -40 Watts
2. Syrius luminaires without PE cell -25 Watts
3. Syrius luminaires with NEMA based PE cell -40 Watts
4. Syrius luminaires with NEMA based PE cell -25 Watts

Yours sincerely,

**MATHEW WALSH**
