Re: Submission to include the Streetworx "Ozlite LED13" decorative "P" category luminaire on the AMEO/NEM Load Tables.

David,

We take this opportunity to present our submission for the Streetworx "Ozlite LED13" decorative "P" category luminaire, to be included in the National Electrical Market Load Tables, in accordance with Clause 14 of the NEM Metrology procedure as defined in Part B.

The following are the details of the decorative luminaire being submitted-

Luminaire	Model	Total System Load	Report Number
Ozlite LED13 Decorative Luminaire	SWOZ13	13W @250V, 0.834pf	LEDLab 210819LCP

The Ozlite LED13 luminaire has been tested by LEDLab for "Street lighting for the AMEO NEM Load Table", report number 210819 dated 30th August 2021.

The Ozlite LED13 is the updated model to the Ozlite LED23 with additional improvements to photometric using lesser wattage.

Luminaire is labelled internally and external in accordance to the Standards.

Please find attached –

- LEDLab report for Luminaire
- Letter of support from United Energy
- Data Sheet

Should you have any further details regarding this submission please do not hesitate in contacting our company.
