David Ripper

Senior Metrology Engineer

Australian Energy Market Operator Ltd.

500 Collins Street

Melbourne VIC 3000

Dear David,

Aldridge Traffic Systems would like to submit our PLED.II 30W luminaire for inclusion to the NEM load table in accordance with clause 14 of the NEM Metrology procedure Part B. Listed per below:

Catalogue Number	Description	Load	Identification / Markings
PLED.II 30W, (Model Number: P30W.N7PBP)	Aldridge PLED.II 30W LED Street Light	29.2019W	L30 CA HO YY (Year of manufacture)

- Please find attached
 - 1) Support letter from Ironbark Sustainability
 - 2) LCP test report
 - 3) Product datasheet.
- The load value is reported from TUV report# AU22O276_001
- The proposed method of control of the luminaire is via timer controlled in accordance to AEMO Metrology Procedure Part B.

Yours Sincerely

JooHong Min

Aldridge Traffic Systems
