Section 1 - General Comments on the Procedure Change Request

Topic	Please Provide Response Here
<p>Sections 1 to 9 of the PCR sets out details of the proposal.</p> <p>Does your organisation supports AEMO's assessment of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO's assessment (include PCR section reference number) of the proposal and include information that supports your organisation's rationale for not supporting AEMO's assessment.</p>	<p>Alinta Energy supports the overall proposal to adopt the Customer Details Notification (CDN) and Customer Details Request (CDR) transactions in the aseXML schema.</p> <p>We understand that to achieve this, the current aseXML schema version r13 will need to be upgraded to a schema version beyond r38 and we support bundling this program of work with the other programs of work scheduled for both the west and east coasts. This will ensure a more cost effective and efficient outcome for both AEMO and market participants.</p>
