

NOTICE OF DETERMINATION – QUEENSLAND GAS PIPELINE (QGP)

Notice to all Registered Participants (Participants) under the National Gas Rules (NGR).

This notice advises all Participants and other interested stakeholders on AEMO’s decision to amend the Transportation Service Point Register.

AEMO notifies Participants that version 1.7 of the Transportation Service Point Register will be effective from 12th August 2020.

Consultation on the Queensland Gas Pipeline (in accordance with clause 3.2 of the Capacity Transfer and Auction Procedures concluded on 14th July 2020.

The decision to make the amendments takes into account the assessment provided in the Impact and Implementation Report (IIR) and comments received on the proposed changes throughout the consultation.

The changes to the Transportation Service Point Register for the Queensland Gas Pipeline are outlined in Attachment A and are summarised as follows:

- Queensland Gas Pipeline is now a bi-directional pipeline between Rolleston and Wallumbilla
- The backhaul service on the Queensland Gas Pipeline is now from Moura to Rolleston
- There are three new notional points; Fairview, Westgrove and Gooimbah

AEMO received feedback from Jemena and as a result have:

- Reinstated the delivery point from the Queensland Gas Pipeline into the Roma to Brisbane Pipeline at Wallumbilla
- Removed the delivery point from the Queensland Gas Pipeline into the South West Queensland Pipeline at Wallumbilla.

AEMO considers that the changes meet the requirements of the National Gas Objective by aiding the operation of the auction.

The IIR is available on the AEMO website at: https://www.aemo.com.au/-/media/files/stakeholder_consultation/consultations/gas_consultations/2020/qld-gas-pipeline-iir/queensland-gas-pipeline-bi-directionality-iir.pdf?la=en

Notice Date: 15 June 2020.

ATTACHMENT A – DOCUMENTATION CHANGES

Blue represents additions Red and strikeout represents deletions – Marked up changes.
