Subject: IIR - IN018/20 Residual Changes for Q4 2021 Release

Good afternoon all,

In accordance with clause 382 of the RMP WA and the Approved Process under Rule 135EC of the NGR, please review the Impact and Implementation Report (IIR) for IN018/20 (Residual Changes for Q4 2021 Release). The IIR and the response template can be found on AEMO's website [here](#).

With respect to the changes to WA documents, the IIR (as outlined by clause 382 of the RMP WA) contains:

- (i) the basis and rationale for the proposed Procedures; and
- (ii) the likely implementation effect of the proposal; and
- (iii) a recommendation on whether the proposed Procedures should be made.

With respect to the changes to east-coast documents, the IIR (as outlined by s135EC of the NGR) contains:

- (i) a critical examination of a proposal for the making of Procedures;
- (ii) an assessment of the likely effect of the proposed Procedures; and
- (iii) a recommendation on whether the Procedures should be made.

Invitation to respond to this IIR

Under the Ordinary Process for making Procedures under clause 383 of RMP WA and under NGR rule 135EF(3)(c), Registered Participants have at least 20 business days to submit comments to the IIR. As such, AEMO invites all Registered Participants to make a submission to the IIR by no later than **COB (AWST) Friday 9 April 2021**. AEMO requests that all submissions be sent via email to grcf@aemo.com.au. Once the period for submitting responses to this IIR has closed, AEMO will then make its decision on whether to submit the proposal for approval by the Economic Regulation Authority (for the changes to WA documents) and will make its decision on whether to approve the proposal (for the changes to east-coast documents).

IIR Response Template.

GRCF participants may complete and submit the IIR Response Template to provide AEMO with any issues / comments that they wish to raise in relation to the proposed change. For the TP changes please ensure you include the item # mentioned in the table reference. AEMO will use these comments, in summarised form, in developing the AEMO decision to submit the proposal for approval by ERA (for changes to WA documents) and in developing the AEMO decision on whether to approve the proposal (for changes to east-coast documents).

Kind regards,

Arjun

Subject: Reminder: PPC - IN018/20 Residual Changes for Q4 2021 Release

Good afternoon all,

A reminder that feedback for IN018/20 (Residual Changes for Q4 2021 Release) is due **18 February 2021**.

Kind regards,

Arjun

Subject: PPC - IN018/20 Residual Changes for Q4 2021 Release

Good afternoon GRCF,

For east coast participants the Approved Process under Rule 135EC of the National Gas Rules (NGR) is a consultative and inclusive process designed to ensure that any change to the Procedures is developed and implemented with due regard to impacted stakeholder concerns. Each stakeholder is provided the opportunity to participate in the consultation for the development of a Procedure change before AEMO approves any change.

For Western Australian (WA) participants Chapter 9 of the Retail Market Procedures (RMP) WA sets out the procedure change process designed to ensure that any change to the Procedures is developed and implemented with due regard to impacted stakeholder concerns and following approval by the Economic Regulation Authority (ERA). Any stakeholder is provided the opportunity to participate in the consultation for the development of a Procedure change before AEMO recommends approval of any change by the ERA.

Procedure Proposed Change (PPC): IN018/20 Residual Changes for Q4 2021 Release

This PPC has been published on AEMO's website. Please find the PPC on the Consultations section of AEMO's website or follow the link below to access the PPC and associated documents.

<https://aemo.com.au/consultations/current-and-closed-consultations/in018-20>

The proponent company for this PPC is AEMO.

Invitation to respond to this PPC

GRCF participants may complete and submit the PPC response template available via the link above, to provide AEMO with feedback that AEMO will use, in summarised form, in developing the "Impact and Implementation Report" (IIR) required for the NGR and clause 382 of the RMP WA.

The due date for submission of responses to AEMO is **COB (AWST) Thursday 18 February 2021**.

Next Steps

Once the period for submitting responses closes, AEMO will incorporate those responses provided by GRCF participants in the IIR.

The IIR, as outlined by Section 135EC of the NGR and by clause 382 of the RMP WA, will contain:

- i. the basis and rationale for the proposed Procedures; and
- ii. the likely implementation effect of the proposal; and
- iii. a recommendation on whether the proposed Procedures should be made.

Depending on the nature of the feedback provided in the responses, AEMO will seek to release the IIR to GRCF participants on 16 March 2021. GRCF participants will be able to make submissions in response to the IIR.

Kind regards,

Arjun
