METERING ICF PACKAGE CHANGES
PROCEDURE CONSULTATION
SECOND STAGE PARTICIPANT RESPONSE TEMPLATE

Participant: *Red Energy and Lumo Energy*

Submission Date: *26 October 2020*

Table of Contents

1. Context

This template is to assist stakeholders in giving feedback about the changes detailed in the initial draft procedures associated with the Metering ICF Package Changes consultation.

The changes being proposed are because of NER rule changes which have occurred requiring changes to AEMO's Retail Electricity Market Procedures and the following proposed changes by proponents and AEMO to implement recommended process improvements.

2. MSATS Procedures: CATS (v4.94)

Section	Description	Participant Comments
2.4.(s)	Updated to add text clarifying the relationship mapping	Red Energy and Lumo Energy (Red and Lumo) have no comments on this change proposal.
2.7	Updated to fix the issue with reference link	Noted
2.9.(k)	Updated to fix the issue with grammar	Noted
4.4 Table 4-D	Updated to reflect the current jurisdictional requirements and definitions of Small and Large customers. AEMO also seeks responses to the following questions: 1. What other improvements could be made to Table 4-D? 2. What might be any benefits/detriments of the proposed changes to Table 4-D noting that the MWh descriptions for small customers relate to business	At this stage, Red and Lumo do not have any feedback in relation to the specific questions raised regarding Table 4-D. However, we offer the following commentary: ● The NMI classification code table as presented in the draft report, section 4.4.3, does not contain the threshold for Large Victoria Business Customers. However, this is present in the MSATS CATS Procedures v4.94 (which is correct). Please rectify in the AEMO consultation report. ● As this change is to clarify the threshold of what is considered as SMALL and LARGE NMI classification, could this not be implemented in an earlier version and date, as opposed to the current proposed date of March 2022?

	customers, but not residential customers, for whom the corresponding description is "any MWh", across "all" jurisdictions? 3. What is the nature of any inconsistencies which may exist? 4. What consequential changes are necessary to the Code Information? 5. What, if any, are the unintended consequences of the proposed changes?	
12.6.3	Updated to fix the issue with reference link	Noted

3. MSATS Procedures: WIGS (v4.94)

Section	Description	Participant Comments
Version	Updated to align version numbering with MSATS: CATS procedures	Noted

4. Metrology Procedure: Part A (v7.31)

Section	Description	Participant Comments
12.5	Reverted wording from 'Validation' to 'Verification' throughout the clause	Red and Lumo support this change.

12.6	Amended the wording from 'Validation' to 'Verification' throughout the clause	Red and Lumo support this change.

5. Metrology Procedure: Part B (v7.03)

Section	Description	Participant Comments
9	Amended the wording from 'Validation' to 'Verification' throughout the clause	Red and Lumo support this change.

6. Service Level Procedure Meter Provider Services (v1.5)

Section	Description	Participant Comments
4.2	Amended the wording from 'Validation' to 'Verification'	Red and Lumo support this change.
4.2.(a)(ii)	Amended the wording from 'Validated' to 'Verified'	Red and Lumo support this change.
4.2.(a)(iii)	Reverted wording from 'Validated' to 'Verified'	Red and Lumo support this change.
4.2.(b)	Reverted wording from 'Validated' to 'Verified'	Red and Lumo support this change.
4.2.(c)	Amended the wording from 'Validation' to 'Verification' and 'Validated' to 'Verified'	Red and Lumo support this change.
4.2.(c)(ii)	Reverted wording from 'Validate' to 'Verify'	Red and Lumo support this change.
4.2.(d)	Reverted wording from 'Validate' to 'Verify'	Red and Lumo support this change.

4.4.(e)	Amended 'New MDP' to 'MDP'	Red and Lumo support this change.

7. NEM RoLR Processes Part A and Part B (v2.1)

Section	Description	Participant Comments
