Executive Summary

The publication of this amendment paper (**Amendment Paper**) commences the process conducted by AEMO (**Consolidation Process**) in respect of the proposal (**Consolidation Proposal**) to consolidate relevant versions of the Retail Electricity Market Procedures (**Consolidating Procedures**) which have a shared effective date of 29 September 2024.

The Consolidating Procedures are:

- Metrology Procedure Part B v7.62 and v7.7.

AEMO has prepared this Amendment Paper to facilitate feedback by industry on the Consolidation Proposal in accordance with NER 8.9.4.

The Consolidation Proposal does not involve any substantive amendments to the Consolidating Procedures. The previous changes to the Consolidating Procedure were consulted on in 2023, in accordance with NER 8.9. Accordingly, for the purposes of NER 8.9.4, the Consolidation Process is minor and administrative in nature.

An interested party which wishes to propose a change which was not addressed during these previous consultations should raise the change through the Electricity Retail Consultative Forum (**ERCF**) using the Issue/Change form.

AEMO invites stakeholders to submit written responses in respect of the Consolidation Proposal in this Amendment Paper to NEM.Retailprocedureconsultations@aemo.com.au by 5:00 pm (AEST) on Friday, 20 September 2024.

1. Process

AEMO is undertaking the Consolidation Process in accordance with the following indicative timeline.

Deliverable	Indicative date
Amendment Paper published	06/09/2024
Submissions due on Amendment Paper	20/09/2024
Final Report published	27/09/2024

2. Background

2.1 NER requirements

AEMO is responsible for the establishment and maintenance of metering procedures specified in Chapter 7 except for procedures established and maintained under rule 7.17.

The procedures authorised by AEMO under NER Chapter 7 must be established and maintained by AEMO in accordance with the NER, including NER 7.16.2.

2.2 Context

AEMO proposes the Consolidation Process to reflect the following changes in Metrology Procedure Part B:

- The ICF_072 change to NSLP Longer-term Methodology to reduce “spikes” in NSLP volumes in areas of the NEM with widespread interval metering.
- Removal of the NSW Controlled Load profile

The details of the previous consultations in respect of these changes are as follows:

Table 1 Metrology Procedure Part B
