PROCEDURE CHANGE PROPOSAL NO: AEPC_2021_03

WEM PROCEDURE: SETTLEMENT

Published: **July 2021**

EXECUTIVE SUMMARY

Change requested by:	AEMO
Date submitted:	9 August 2021
Type of Procedure Change Proposal:	Amendment
WEM Procedures affected:	WEM Procedure: Settlement

The publication of this Procedure Change Proposal and the accompanying call for submissions, commences the Procedure Change Process conducted by AEMO to consider proposed amendments to the WEM Procedure: Settlement (Procedure) under the Wholesale Electricity Market Rules (**WEM Rules**).

In February 2020, the Minister for Energy for Western Australia gave notice of the Wholesale Electricity Market Amendment (Reserve Capacity Reforms) Rules 2019¹. The Amending WEM Rules made by the Minister for Energy has a commencement date of 1 October 2021.

Clause 2.9.3(b) of the WEM Rules requires a WEM Procedure to be amended where a change is required to maintain consistency with Amending Rules. AEMO has therefore initiated this Procedure Change Proposal, proposing amendments to the Procedure to ensure that it is consistent with the Amending Rules introduced by the Minister for Energy.

The Procedure Change Proposal was first consulted on at the AEMO Procedure Change Working Group (APCWG) meeting on 2 August 2021. Stakeholders did not request any changes at the meeting.

AEMO invites stakeholders to suggest alternative options or drafting where they consider that these would improve the Procedure or better meet the Wholesale Market Objectives in section 122(2) of the Electricity Industry Act 2004 (Electricity Industry Act) (and clause 1.2.1 of the WEM Rules).

Stakeholders are invited to submit written responses on the proposed amended Procedure by 5.00 pm (Australian Western Standard Time) on 6 September 2021, in accordance with the call for submissions published with this paper.

1. PROCEDURE CHANGE PROCESS

Clause 2.10 of the WEM Rules outlines the Procedure Change Process.

AEMO may initiate the Procedure Change Process in respect of WEM Procedures (including Power System Operation Procedures and the Monitoring and Reporting Protocol) for which it is responsible by developing a Procedure Change Proposal. Rule Participants may notify AEMO where they consider an amendment or replacement of an AEMO WEM Procedure would be appropriate.

If an Amending Rule requires AEMO to develop new WEM Procedures or to amend or replace existing WEM Procedures, then AEMO is responsible for the development, amendment, or replacement of WEM Procedures so as to comply with the Amending Rule.

Under clause 2.9.3 of the WEM Rules, WEM Procedures:

- (a) must:
 - (i) be developed, amended or replaced in accordance with the process in the WEM Rules;
 - (ii) be consistent with the Wholesale Market Objectives; and
 - (iii) be consistent with the WEM Rules, the Electricity Industry Act and the WEM Regulations; and
- (b) may be amended or replaced in accordance with section 2.10 of the WEM Rules and must be amended or replaced in accordance with section 2.10 of the WEM Rules where a change is required to maintain consistency with Amending Rules.

The Wholesale Market Objectives are:

- (a) to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services in the South West interconnected system;
- (b) to encourage competition among generators and retailers in the South West interconnected system, including by facilitating efficient entry of new competitors;
- (c) to avoid discrimination in that market against particular energy options and technologies, including sustainable energy options and technologies such as those that make use of renewable resources or that reduce overall greenhouse gas emissions;
- (d) to minimise the long-term cost of electricity supplied to customers from the South West interconnected system; and
- (e) to encourage the taking of measures to manage the amount of electricity used and when it is used.

AEMO has published this Procedure Change Proposal in accordance with the Procedure Change Process in clause 2.10 of the WEM Rules.
