There are no Standing consultation items.

1.6 B2B Consultation

Meghan Bibby also noted that Final Report of the B2B consultation version 3.7 has been published on AEMO website.

ITEMS FOR DISCUSSION OR NOTING

2.1 Shared Fuse ICFs – Review of Feedback - Paul Greenwood (Vector)

Discussion:

- Meghan Bibby (AEMO) asked if anyone wants to provide any feedback. Mark Riley noted that he will review it by end of the week.
- David Woods (SAPN) referred to the ICF raised by PLUS ES to ERCF and initial population of the field and noted whether there is a need to make change to NOMW.
- Helen Vassos (PLUS ES) noted that the objective of their ICF to ERCF was to gain efficiencies and since that is not possible then they have withdrawn their ICF. This was confirmed by Paul Greenwood.
- Helen Vassos noted that PLUS ES's preference is to move away from notes or free text fields.

Actions:

- AEMO to resend the ICF with an email requesting specific responses.
- Networks to review the ICF and provide their preference from the options and the alternate approaches.
- B2B WG members to provide a preference for communicating the presence of shared fuses.

2.2 Coincident service orders and multiple service providers update – Kate Gordon (AEMO)

Discussion:

- Kate Gordon (AEMO) noted 17 responses received. Responses being collated and analysed.
- Mark Riley (AGL) queried if AGL's response was not received. Mark will resend AGL's response.

2.3 B2B Guide refresh – Mark Riley (AGL)

Discussion:

- Mark Riley noted the guide was written pre-Power of Choice and was not updated with further changes. The draft guide has been circulated. Mark offered to collate any feedback from the B2B WG.
- Meghan Bibby queried if some of the refresh items for shared fuses could be included in B2B guide.

- Mark Riley noted that he is not sure of Network processes. Mark also requested the DBs to review sections that apply to them.
- Meghan Bibby noted that process flows for new connection were included in the guide and requested if they could be checked for currency.

Actions:

- Meghan Bibby to send the current guide to B2B WG.
- Networks to confirm their sections.

2.4 Fields tied to an Australian Standard – Mark Riley (AGL)/ David Woods (SA Power Networks)

Discussion:

- Mark Riley noted that he could only get image PDF version of the standards and it is difficult to make comparison e.g. tables. Lot of standards point to technical description. The schema does not point to a specific standard e.g. enumerated address.
- Meghan Bibby queried if everyone wants to look at this with a fresh mind for the December meeting.

Actions:

- AEMO to organise an analyst resource to look at description changes and if they have any technical impact.
- Add Australian Standards to December agenda

3 OTHER BUSINESS

3.1 Wrap-up, actions, questions, parked issues

Nandu Datar (AEMO) informed the B2B-WG of the actions generated at this meeting. These are reflected in the Action register. The next B2B-WG meeting is 11 October 2021.
