2. AEMO Operational Updates

2.1. Power System Update

Paul Elliott (AEMO) presented a power system update noting, the load volatility on 1 August 2022, winter peak and unusual peak loads.

2.2. Reserve Capacity update

Grace Liu (AEMO) presented an update on Reserve Capacity activities providing an update on the following items:

- The winter reserve capacity testing outcomes for the 2021 and 2022 capacity year. Except for facilities currently on outages that cannot be tested, the rest of the facilities have passed the verification by observation for this winter testing period. The next reserve capacity testing cycle will commence 1 October 2022 for the 2022 and 2023 capacity year. Market Participants (MP) will be notified when the timeline is ready.
- The 2022 WEM Electricity Statement of Opportunities (ESOO) survey closes on 25 August 2022

Grace also provided a forward plan for the next three Forecasting Reference Group meetings, noting the next one is on 31 August 2022. Invites will be sent to WA MP. Questions and feedback can be directed to wa.capacity@aemo.com.au
